Download

To download the selected file you must follow these directions:

1. Download a "Delivery Client" executable that will handle the actual file download, using the "**Start Download**" button below. Please make sure to save the file with an ".exe" file extension in order to launch the file. If the file is saved without an ".exe" extension and no icon appears, please rename the file and add the extension ".exe".
2. Launch the Delivery Client (it will have an icon that looks like this: )
3. The delivery client will walk you through the following four steps to download the file:
 - **Authorization:** Your download must be authorized. If you do not have available downloads, please contact support to request additional downloads (see Help on the website).
 - **Downloading:** The protected file will be downloaded to you local computer.
 - **Unpacking:** The file needs to be unpacked as it is secured.
 - **Launch Install:** This is the final step where you can choose to install or, in the case of ISO file downloads, to create a disk.
4. Your download is now complete. You can try your download again by retrieving this delivery client from the website or by simply launching it from your local computer at a later date.

You must now install the software; if you have difficulties please see the website for further instructions.

Click on Run.
