Subject: Request for Supervision & Acceptance Letter for CSC Scholarship (Master in Computer Science – IoT)

Dear Professor [Professor Name],

I hope you are doing well. My name is Maria Khan, and I am an international student from Pakistan. I have recently completed my Bachelor's degree (BS) in Computer Science, and I am applying for the Chinese Government Scholarship (CSC) to pursue a Master's degree in Computer Science at Wuhan University.

My primary research interest is in the area of Internet of Things (IoT), with a particular focus on:

AI-enabled secure and energy-efficient IoT frameworks for smart city monitoring applications.

While exploring Wuhan University's faculty profiles, I came across your research work in [Professor's Research Area / Lab], and I found your expertise highly relevant to my proposed research direction. Your publications and contributions strongly inspired me, and I would be honored to have the opportunity to conduct my Master's research under your supervision.

Therefore, I kindly request you to consider accepting me as your graduate student and providing an acceptance letter, which is an important supporting document for my CSC scholarship application.

For your convenience, I have attached the following documents:

- Curriculum Vitae (CV)

- Detailed Study Plan / Research Proposal

- Academic Transcripts

- Passport Copy (if required)

I would be very grateful for your time, guidance, and kind consideration of my request. I look forward to the possibility of working under your supervision at Wuhan University.

Thank you very much.

Yours sincerely,

Maria Khan

Applicant – Master's in Computer Science (CSC Scholarship)

Wuhan University, China
